Thanat Thincheelong (Pump)
Developer / Programmer

I am a hardworking and motivated individual with experience in software development and problem-solving. I have a strong ability to learn quickly and adapt to new technologies, making me highly versatile in dynamic work environments. I thrive under pressure and excel in collaborative settings, effectively working with teams to achieve common goals. My passion for continuous learning drives me to seek out new challenges and opportunities for growth, ensuring that I stay updated with the latest industry trends and best practices.

EDUCATION

Khon Kaen University | 2017–2021

Bachelor of Information Technology

WORK EXPERIENCES

📍 Chaiyaphum Hospital | Full-Stack Developer — Feb 2025 – Present

Design and Development of MySQL Database and Web Application for Health Insurance Department
- Programming Languages : Laravel, PHP, MySQL, HTML, CSS, JavaScript
- Software : Visual Studio, Navicat, aaPanel

Web Design and Development
- Designed and implemented a system to manage the registration of foreign nationals for health insurance, including functionalities for adding, deleting, and editing records.
- Designed and implemented a system to manage the registration of foreign nationals for health insurance, including functionalities for adding, deleting, and editing records.
- Designed and implemented a real-time dashboard to visualize and track data updates in real-time.
- Developed a feature to allow data export to Excel format for improved data management and accessibility.
- Developed a document registration system for patient records in the Health Insurance Department, with functionality to upload and manage documents

📍 DKcode Co., Ltd | Programmer — Nov 2024 – Feb 2025

Designing Systems and Troubleshooting Issues Identified by Testers
- Programming Languages : MySQL, JavaScript
- Platforms : Low-code

System Design and Development
- Designed and implemented a patient screening module for new visit appointments.
- Developed a blood allergy screening interface to capture and monitor patient blood type reactions.
- Created a form interface to record and track post-blood transfusion symptoms.
- Collaborated with senior developers to resolve issues identified by testers.

WORK EXPERIENCE

📍 **Soft Kingdom Co., Ltd | Game Developer**　　　**May 2023 – Sep 2023**

Design and Develop game for web application to project's requirement
- Programming Languages :C#
- Game Engines : Unity
- Software : Visual Studio, Github, Trello

Test , Investigate and solve game on web application
- Assisted in the development of game prototypes and proof-of-concepts
- Participated in code reviews, identifying and resolving issues to improve code quality.
- Collaborated with senior developers in designing and implementing game mechanics.
- Conducted testing and debugging to identify and fix software defects.

📍 **ONE Game | Game Developer**　　　**Dec 2021 – Mar 2023**

Design and Develop game for web application to project's requirement
- Programming Languages : GDScript, C#
- Game Engines : Godot, Unity
- Software : Visual Studio , Github

Test , Investigate and solve game on web application
- Assisted in the development of game prototypes and proof-of-concepts
- Participated in code reviews, identifying and resolving issues to improve code quality.
- Conducted testing and debugging to identify and fix software defects.

HARD SKILLS

Frontend Development
- React.js / Next.js
- TypeScript
- Tailwind CSS
- Framer Motion
- HTML5
- CSS3
- JavaScript

Backend Development
- PHP / Laravel
- MySQL
- RESTful APIs
- Database Design
- aaPanel

Game Development
- Unity / C#
- Godot / GDScript
- Game Design
- Gameplay Mechanics

Mobile Development
- Swift
- SwiftUI
- iOS Development
- Mobile UI/UX

Development Tools
- Git / GitHub
- VS Code
- Xcode
- PowerBI
- Postman

SOFT SKILLS
- Problem Solving
- Team Collaboration
- Project Management
- Fast Learning

CERTIFICATES

Advanced iOS Development with Swift
BornToDev Academy

Basic iOS Development with Swift
BornToDev Academy
